of deployments

Have your mobile devices recharged safely,
ready to use, and for a long time!

**Shared
devices fleet**

**Individual
devices fleet**

**Individual or
personal devices**

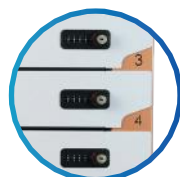

Integrated electrical safety
Your devices and your electrical
installation are protected from
peak loads and surges.

Whether it is managing mobile devices in shared fleet, individual equipment or personal devices for employees or visitors, there is always a corresponding Tabisafe mode.

**Tabisafe M optimises the charging
of your mobile devices**
Whatever the device, Tabisafe M
offers an optimal charging solution.
Each locker is equipped with a
230 V plug and 2 USB ports (A&C)
allowing simultaneous
charging of 3 devices per locker.

**Keys or codes
padlocks**

**Code locks with fixed
or free code**

A Naotic solution for all sectors of activity
concerned by digitisation
